Free Dental Camp organised by KVG Dental college and Hospital, Sullia, Sri Sathya Sai Seva Samithi Bayar and Prashanthi Vidya Kendra, Bayar

With parents as pillars of strength, Management as guiding visionaries, and teachers as torchbearers of knowledge, the books were placed in the hands of our upcoming 10th batch — not merely as pages of lessons, but as seeds of dreams, discipline, and destiny. A sacred beginning towards excellence.

With hearts filled with gratitude, we bow at the Lotus Feet of our Beloved Swami, whose continuous grace has guided and protected our institution in every aspect throughout this academic year. It is His divine blessings that have illuminated our path, strengthened our efforts, and crowned our journey with success.

This edition marks the final e-newsletter of the academic year—a moment of reflection, thanksgiving, and renewed commitment. As we turn these last pages of the year, we look back with pride and forward with hope.

We express our heartfelt gratitude to all our parents and well-wishers for their unwavering trust and encouragement. Your cooperation has been our strength. Our sincere thanks also go to our dedicated teaching and non-teaching staff, whose tireless service, discipline, and commitment have made this year truly remarkable. Their silent sacrifices and collective efforts have transformed challenges into achievements.

To our dear students—you are the very soul of this institution. Without you, every effort would be meaningless. Your enthusiasm, discipline, talents, and achievements have brought glory to our school. We are immensely proud of the milestones we have reached together this year, both in academics and in character building.

As we celebrate the accomplishments of this academic year, we also look ahead with optimism. With continued divine grace and the same spirit of unity and cooperation from parents, well-wishers, and staff members, we aspire to scale greater heights and contribute meaningfully to the field of education in the years to come.

Finally, we extend our sincere appreciation to the editorial team and our talented students who have worked diligently to bring out this beautiful monthly e-newsletter. Your creativity and dedication have given voice to our shared journey and preserved our memories in words and images.

Let us move forward with faith in our hearts, gratitude in our minds, and service as our guiding principle.

With humble regards
— Editorial Board

Srisathya sai Bhajana Seva by the Teachers and Students at the Residence of Sri Manippady Krishnakumar, in Connection with Mahashivarathri Celebration

Shramadhana by Our Students

Our Students Watched the live Telecast of "Pariksha Pe Charcha" at Our School. It was an Enriching and Motivating Session where they received valuable Guidance on exam Preparation, Stress Management, and Positive Thinking from our Hon'ble Prime Minister.

Critical Thinking

Critical thinking is the ability to analyze information carefully, question assumptions, and make reasoned judgments rather than accepting ideas at face value. It involves skills such as evaluating evidence, recognizing bias, and distinguishing between strong and weak arguments. In a world full of information—from social media posts to news articles—critical thinking helps people avoid misinformation and make decisions based on logic and facts instead of emotions or peer pressure. Beyond academics, critical thinking is essential in everyday life. It helps individuals solve problems, understand different perspectives, and make thoughtful choices about issues that affect them and others. By practicing critical thinking, people become more independent learners and more responsible citizens, capable of adapting to new situations and challenges. Developing this skill takes time and effort, but it leads to clearer thinking, better communication, and more confident decision-making.

ECHOES OF VALOR:

Soldiers stand on guard all night and day,
keeping danger and fear away.
On snowy peaks or desert sands,
they protect our beloved land.
With hearts of steel and spirits high,
for our freedom, they fight and die.
Flags will rise and hearts will sing,
proudly let our voices ring with "Jai Bharat."
For every hero brave and strong,
we honour them through this song.
Their sacrifice will shine so bright;
our warriors are the nation's light.

देश के विकास में विद्यार्थियों का दायित्व

विद्यार्थी देश का भविष्य होते हैं। आज के विद्यार्थी ही कल के डॉक्टर, इंजीनियर, वैज्ञानिक और नेता बनते हैं। इसलिए देश के विकास में उनका महत्वपूर्ण योगदान होता है। यदि विद्यार्थी मन लगाकर पढ़ाई करें और अच्छे संस्कार अपनाएँ, तो वे देश को आगे बढ़ाने में मदद कर सकते हैं।

महान वैज्ञानिक ए.पी.जे. अब्दुल कलाम भी पहले एक परिश्रमी विद्यार्थी थे। उनकी तरह हर विद्यार्थी को मेहनती, ईमानदार और अनुशासित बनना चाहिए। विद्यार्थियों को अपने विद्यालय, घर और आसपास की सफाई का ध्यान रखना चाहिए। उन्हें पेड़-पौधे लगाकर पर्यावरण की रक्षा भी करनी चाहिए।

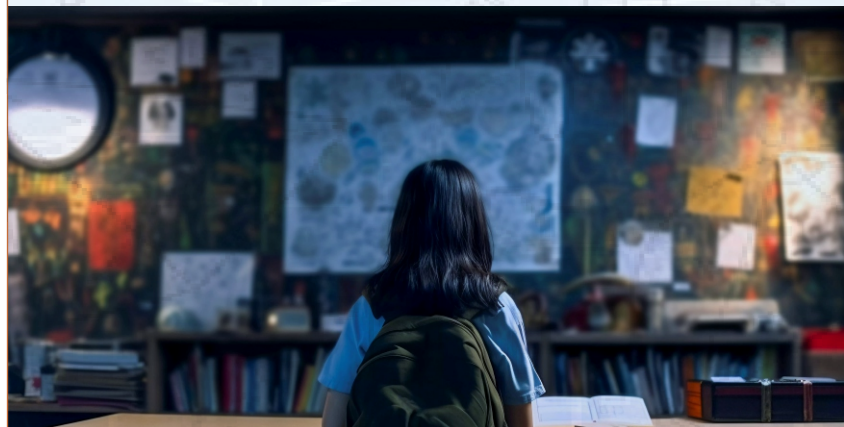

विद्यार्थियों को बड़ों का सम्मान करना चाहिए और देश के नियमों का पालन करना चाहिए। एक अच्छा विद्यार्थी ही आगे चलकर एक अच्छा नागरिक बनता है। इसलिए विद्यार्थियों को आज से ही अपने कर्तव्यों को समझकर देश के विकास में योगदान देना चाहिए।

Unwritten Lessons of School

School is a treasure trove of life lessons beyond the textbook. It is where we learn resilience through failures, patience through struggles, and confidence through small wins. The corridors teach us navigation, classrooms teach adaptation, and playgrounds teach us sportsmanship. Every test teaches us evaluation, every project teaches innovation, and every presentation teaches courage. We discover our passions, face our fears, and learn to collaborate. They are not just life lessons — they are life's building blocks.

"Karishye Vachanam Tava"

Our Learning Home

My school is a nurturing and inspiring place that shapes students into responsible and confident individuals. It provides a calm and disciplined environment where we feel safe and encouraged to learn. The teachers are dedicated and guide us not only in academics but also in moral values, discipline, and good behaviour. My school believes education is not just about marks but about building character and responsibility. Equal importance is given to studies, sports, and co-curricular activities to ensure overall development. It teaches us honesty, respect, hard work, and perseverance. I feel proud and grateful to be a part of my school, which gives us not only education but also lifelong values and direction in life.

A Home Away From Home

My school is not just an institution; it is my second home. It is the place where I have grown, learned, and created beautiful memories. Surrounded by greenery and a peaceful atmosphere, our campus makes learning joyful and refreshing. Our school is known for academic excellence and discipline. The teachers are supportive and caring. Though the school may sometimes feel strict, it is this discipline that shapes us into responsible individuals. As seniors, we feel proud and emotional while cherishing our final days. Our Class 10 journey, especially the lively morning Maths classes, will always remain unforgettable. Dear juniors, make the most of every opportunity. Live in the present, cherish every moment, and leave with no regrets.

MY SCHOOL JOURNEY

My journey in school up to Class 10 has been a meaningful phase of learning, growth, and self-discovery. From my early years, school helped me build a strong foundation in academics while also shaping my discipline, values, and confidence. As I progressed through different classes, I learned not only subjects like Mathematics, Science, and languages but also important life skills such as time management, teamwork, and responsibility. School provided me with opportunities to participate in various activities, which helped improve my communication skills and boost my self-confidence. The guidance and support of teachers played a crucial role in motivating me to improve, overcome challenges, and aim for better performance. Their encouragement helped me develop a positive attitude toward learning and problem-solving. The journey was not without challenges. Balancing academics, examinations, and personal growth was sometimes difficult, but these experiences taught me perseverance and resilience. By the time I reached Class 10, I became more focused, mature, and aware of my goals. Overall, my school journey up to Class 10 has been an important and memorable chapter that has prepared me academically and personally for the future.

My School – A Place of Values and Growth

I feel proud to be a student of this school. The teachers in school are very kind, supportive and hardworking. They not only teach us subjects like Maths, Science and English, but also important values like honesty, discipline and respect. They guide us whenever we face difficulties. My school provides many opportunities such as sports, arts, cultural programs and competitions. These activities help us to discover our talents and improve our confidence. Swami's thoughts helped me to shape my life as well as my mind. I will adopt the thoughts by Swami in my life.

REPTILES

AMPHIBIANS

Amphibians vs Reptiles

Amphibians such as frogs and newts are more dependent on aquatic habitats than reptiles. Their eggs are protected only by a thin membrane and are laid in water. Many of them go through several developmental stages until they become adults. Unlike amphibians, reptiles such as tortoises, crocodiles, and snakes have scaly skin. Their eggs are covered by a hard, calcified shell and are laid on land.

Importance of Democracy

Democracy is a form of government in which the people have the power to choose their leaders through elections. The word democracy comes from the Greek words demos (people) and kratos (rule), which means rule by the people. In a democracy, every citizen has equal rights. People above 18 years of age can vote and take part in the government. Democracy protects the freedom of speech, religion, and expression. It also ensures equality before the law. One of the main features of democracy is that the government is responsible to the people. If the people are not happy with the government, they can change it in the next election. This makes the leaders work honestly and carefully. Democracy also helps in the development of the country. When people participate in decision-making, they feel responsible for their nation. It encourages peace, unity, and cooperation among the citizens. In conclusion, democracy is the best form of government because it gives power to the people and protects their rights and freedoms.

Maths with Smile

- Q: Why is Maths considered brave?
A: Because it faces problems every day!
- Q: Why was 6 afraid of 7?
A: Because 7 ate (8) 9!
- Q: How can 9 + 5 become 2?
A: On a clock! 9 AM + 5 hours = 2 PM.
- Q: When you turn me upside down, I become smaller. Who am I?
A: The number 9 (it becomes 6).
- Q: I am an odd number. If you remove one letter, I become even. Who am I?
A: Seven (remove "S" and it becomes "even").
- Q: I am a three-digit number. When you add all my digits, the sum is 15. All three digits are the same. Who am I?
A: 555 (5 + 5 + 5 = 15).
- Q: I come once in a month, twice in a moment, but never in a year. Who am I?
A: The letter "M".
- Q: Which tool does a mathematician use in a garden?
A: A square root!
- Q: Why was Maths sad?
A: Because it was full of problems!

"Karishye Vachanam Tava"

ಇಳಿ ತಂಪಾಗಿದೆ

ಮಳೆರಾಯ ಬಂದಾಗ
ಹನಿಗಳ ಇಂಪು ತಂದಾಗ
ನಿನ್ನ ಭಾವದಲ್ಲ ಸಂಬಂಧ
ಸಿಂದನ; ಅದು ಅನುಬಂಧ
ಜಲದ ನೆಲದ ಆಲಂಕನ

ಎಲ್ಲೆಲ್ಲನ ಮೋಡ ಅಲ್ಲೆಲ್ಲೋ
ಅದು ಮಳೆ ಬಂದಾಗ
ಒಂದಾಗುವುದಿಲ್ಲವೋ!
ಮಳೆರಾಯನ ಕೊರತೆಗೆ
ಶೃಂಗಾರ ಕಾಮನ ಜಲ್ಲೋ

ಮಳೆಹನಿಯ ಸಿಂಧೂರವೇ
ಬಂಧುವಾಗಿದೆ
ಇಬ್ಬರು ಬೆರೆತಾಗ ಭಾಗ್ಯದ
ಹೊನಲನ ಚಂದವಾಗಿದೆ.

ಮಾಯದಾ ಮಳೆಯೆಲ್ಲ
ಜೀಜವು ಚಿತ್ತನೆಯ ಪಡೆದಿದೆ
ಮಳೆಯಿಂದ ಇಳಿಯೆಲ್ಲಾ
ಸಂತಸದಿ ನಲದಾಡಿದೆ.

ಪಶು ಪಕ್ಷಿ ಸಂಗೀತದ
ಸುಮಧುರ ಗಾನ ಹಾಡುತ್ತಿದೆ.
ಜಿಸಿಲ ಬೇಗೆಗೆ ಬೆಂದು ಹೋದ
ಹುಲ್ಲು ಮತ್ತೆ ಚಿಗುರಿದೆ
ಬಾನಿಂದ ಚಂದಿರ ಇಳಿಯ
ಸೊಬಗಿಗೆ ಮೈಮರೆತಿದೆ.

Science Shaping Our World and Our Future

Science plays a crucial role in our everyday lives by helping us understand the nature and improve the way we live. From health care and agriculture to communication and transportation, scientific discoveries have made life safer, easier, and more comfortable. Medicines, vaccines, modern farming methods, and digital technology are all results of continuous scientific progress that support (cave) human well-being and development

Beyond inventions and machines science encourages curiosity and logical thinking. It teaches students to ask questions, experiment, and Learn through observation and evidence. By developing a scientific Cand attitude, young minds are inspired to innovate and find solutions to real-world problems

In conclusion, science is the foundation of modern Society and the key to a better future. By promoting scientific learning and responsible use of techndagy we can create a healthier, more sustainable, and progressive world
